8% in ospedale

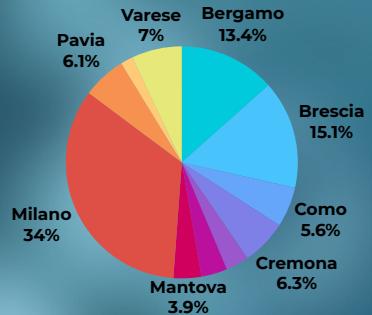

10%  
terapia intensiva

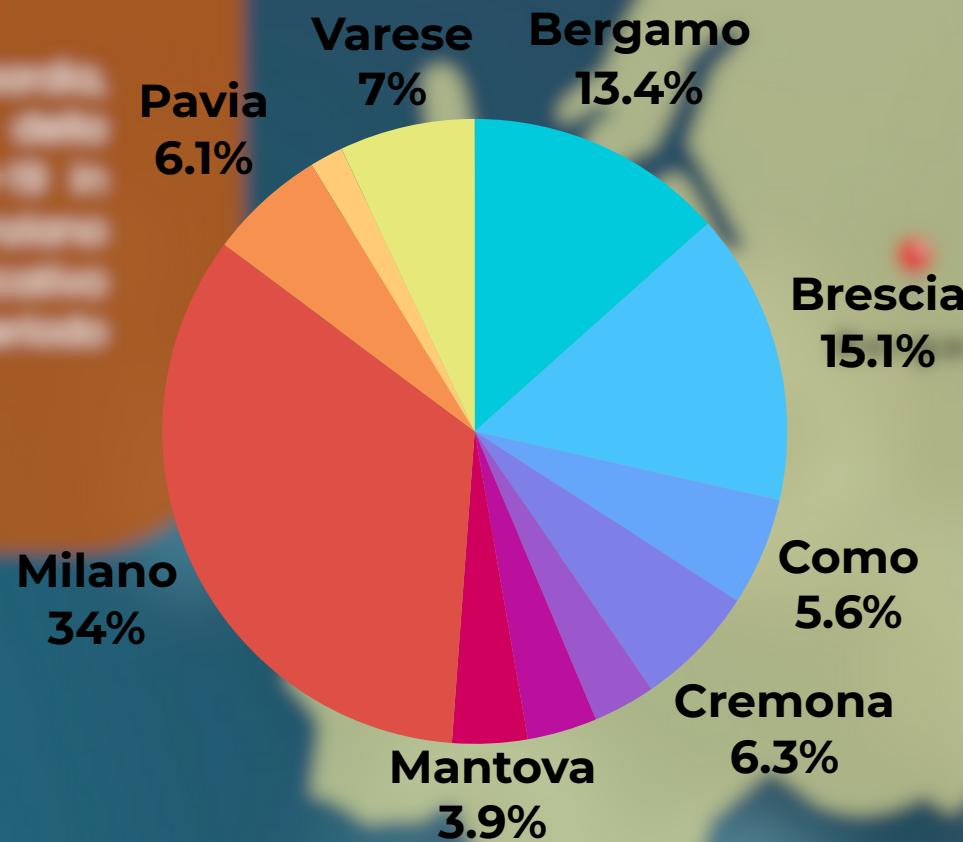

# DECESI DURANTE L'ANNO

# LOMBARDIA

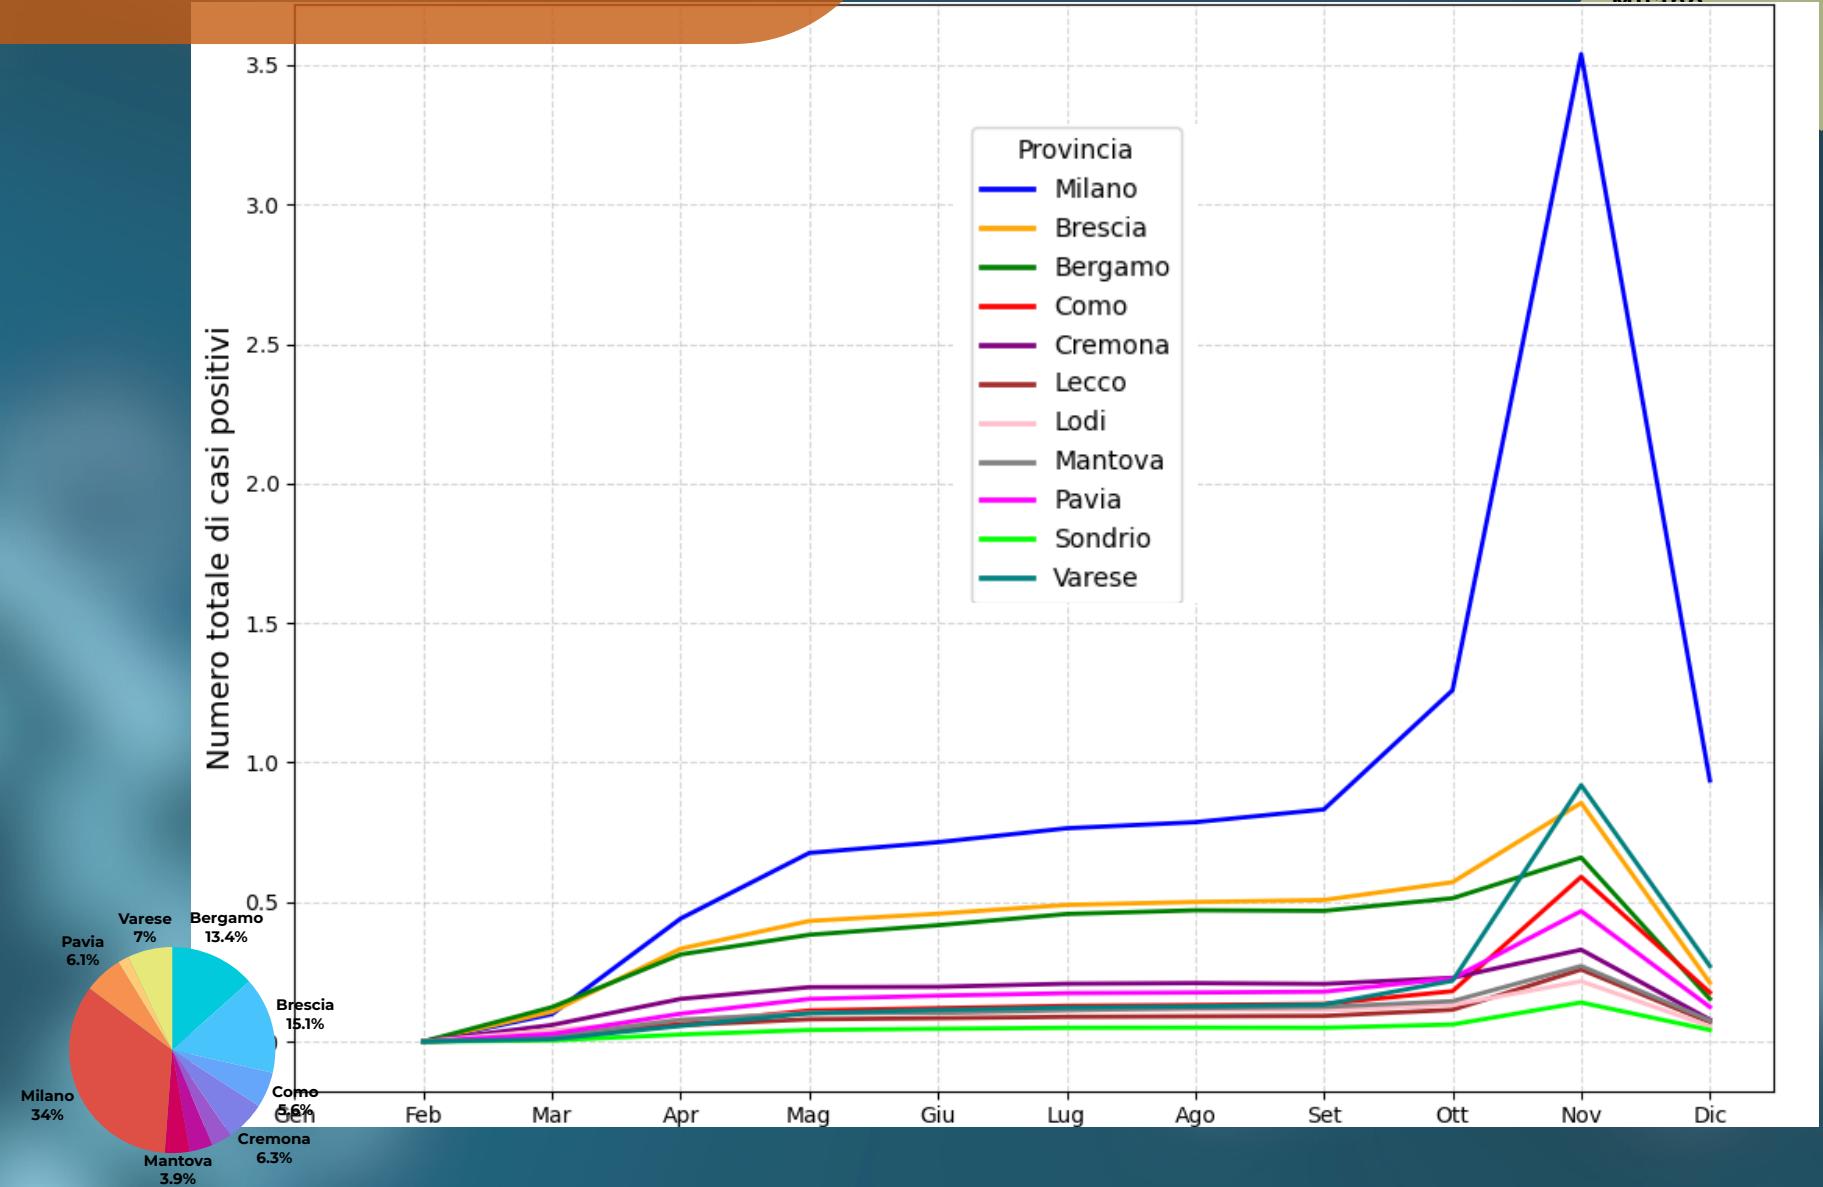

Nella regione Lombardia, epicentro iniziale della pandemia di COVID-19 in Italia, i grafici evidenziano un andamento significativo nel corso del periodo considerato.

LOMBARDIA

# Situazione nelle province lombarde

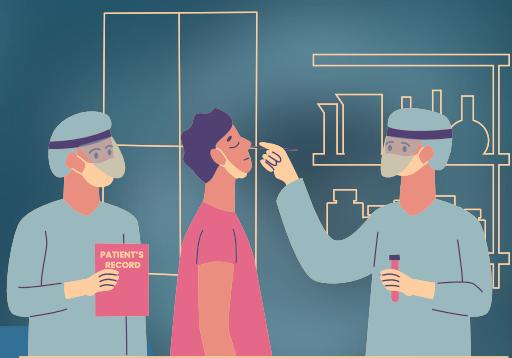

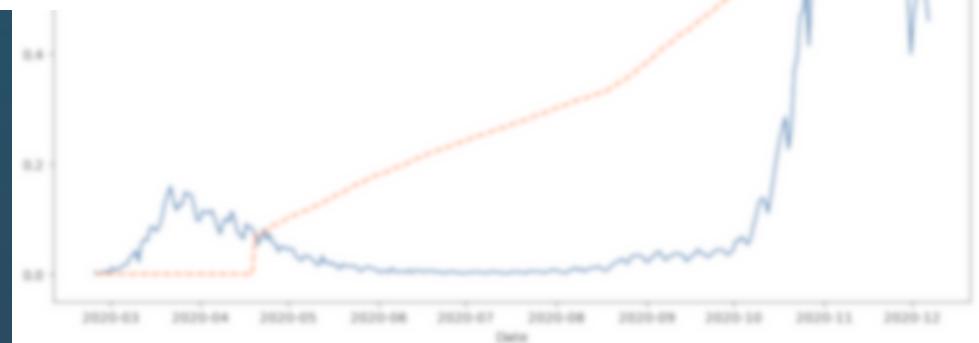

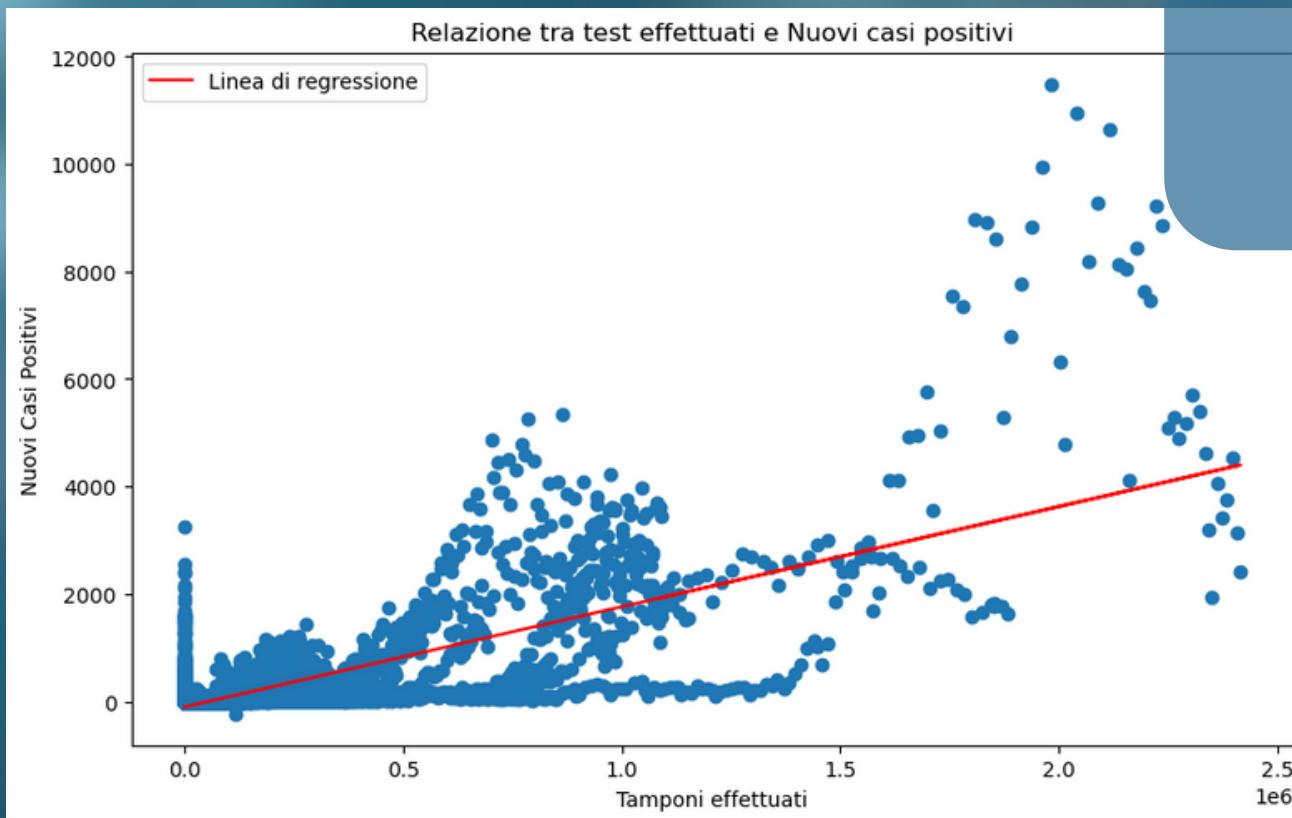

# Perchè queste tre città?

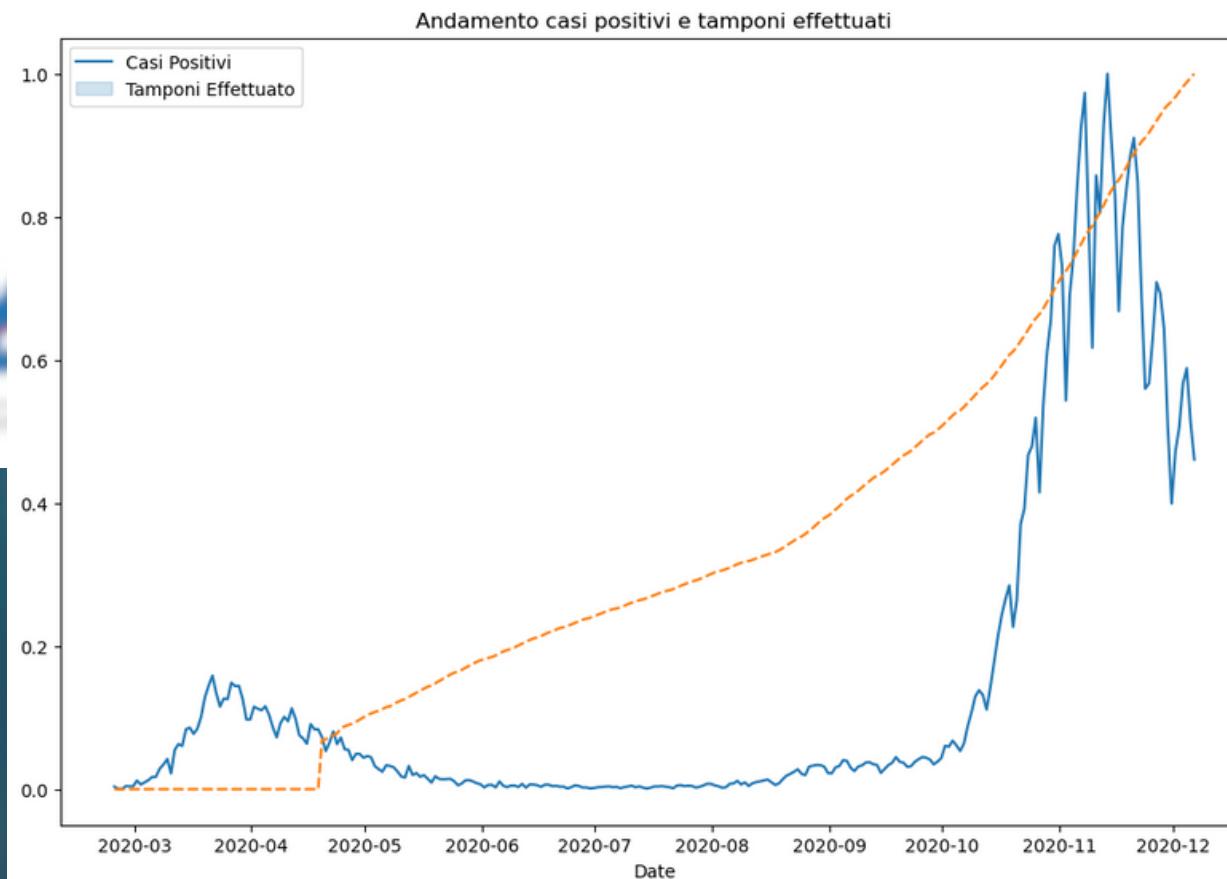

398.043  
**Media abitanti dei  
capoluoghi di regione  
italiani per il 2011**

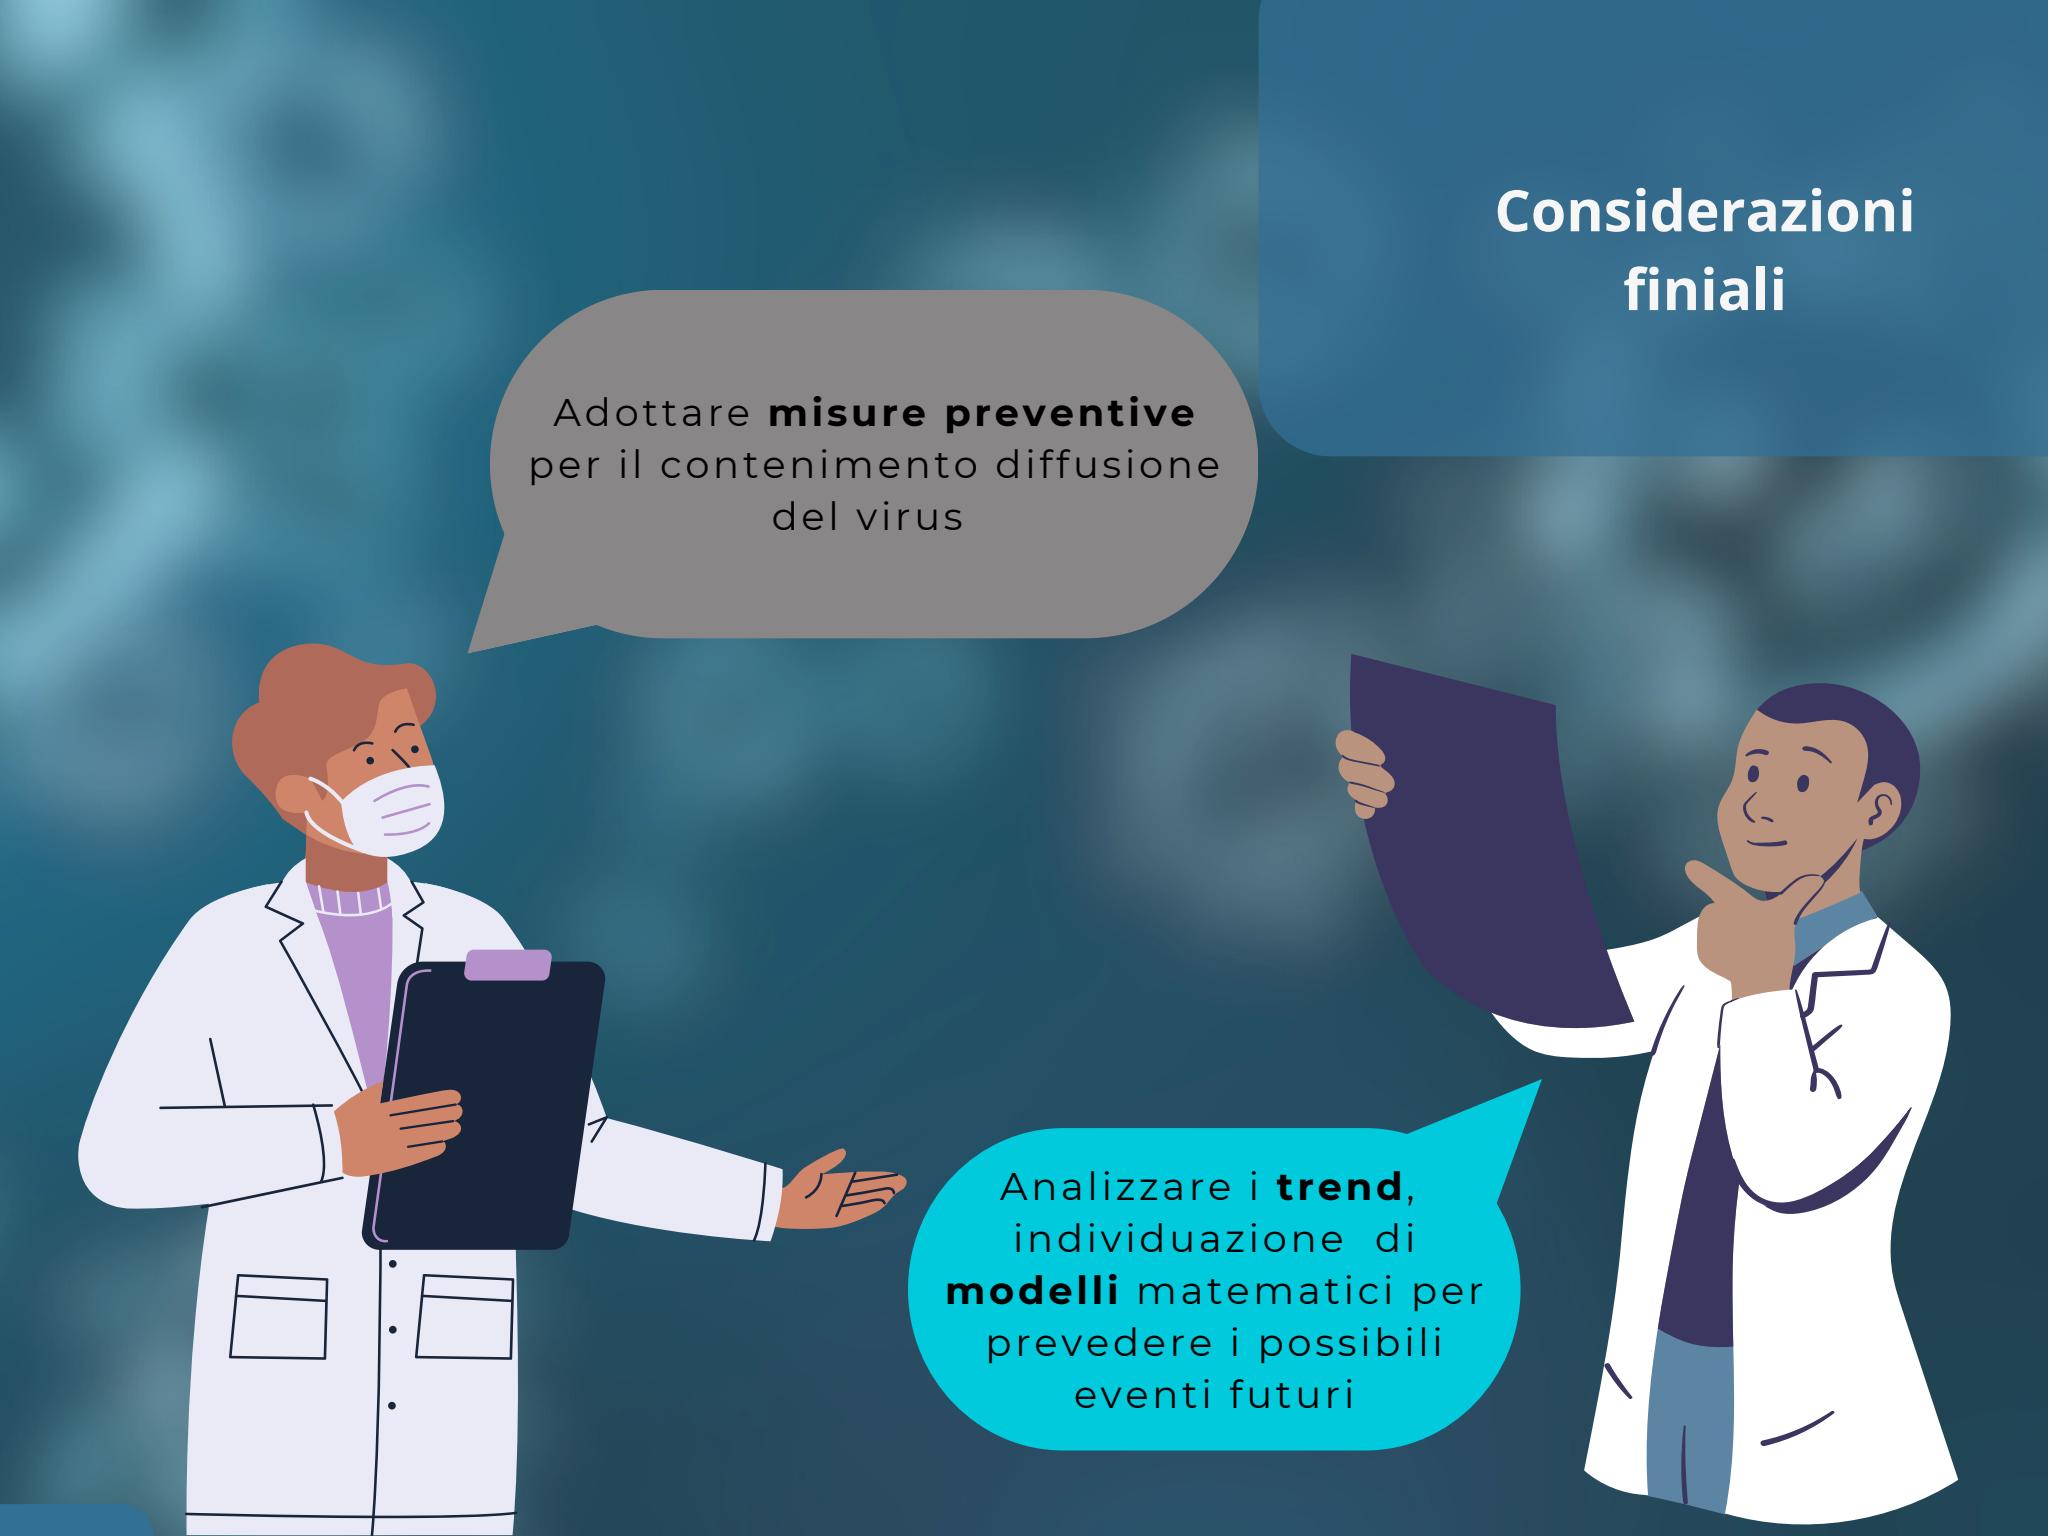

# Correlazione tra test effettuati e nuovi casi

# Tempestività dei test

## Considerazioni finiali

Adottare **misure preventive**  
per il contenimento diffusione  
del virus

Analizzare i **trend**,  
individuazione di  
**modelli** matematici per  
prevedere i possibili  
eventi futuri

# Grazie per l'attenzione
